25 June 2010

Successful Completion of Capital Raisings

The Directors of D'Aguilar Gold Ltd ("D'Aguilar" or "the Company") are pleased to confirm the completion of the Company's capital raising, including its Non-Renounceable Rights Issue and a Placement to sophisticated investors.

Interest from sophisticated investors in the placement of any potential shortfall under the Rights Issue was so strong that the Directors exercised their discretion to increase the total of the combined raisings from \$1.225 million to \$1.475 million.

The Directors would like to thank all shareholders for their on-going support of the Company. All interest in the placement was secured prior to the recent increase in the Company's share price.

The associated Section 708A Notice and Appendix 3B are attached.

On behalf of the Board
KM Schlobohm
Company Secretary

About D'Aguilar Gold

D'Aguilar Gold Limited is focused on generating exploration and development companies in a wide array of minerals.

Projects are conceived directly through the skills and experience of D'Aguilar's accomplished team of exploration geoscientists (an enviable track record), not by the costly purchase of properties. Each project or exploration strategy is held in a separate subsidiary.

Focused and specialist management is then engaged in the subsidiary, with project specific finance raised in the subsidiary – faster and less dilutive to D'Aguilar. As the subsidiary project develops and starts to derisk the subsidiary is separately capitalised (seed raisings followed by an IPO).

Investors can choose to invest specifically in a particular project/commodity, or by investing in D'Aguilar, invest in the resource company generating business which retains a significant carried interest in each project.

D'Aguilar projects tend to be very large, targeting new provinces with the potential to make world-class discoveries. The exploration concepts are often novel. While increased metal prices and advances in technology can turn former sub-economic deposits into viable projects, D'Aguilar subsidiary projects frequently emerge from detailed reassessment and reinterpretation of large databases – looking at things from a new angle and with a different focus using state of the art techniques. The D'Aguilar Directors and Managers have in the past applied new exploration models to extensive tenement areas which have led to identification of new mineral provinces and the discovery of nationally significant resources. Similar efforts are now being dedicated to D'Aguilar.

D'Aguilar Gold currently holds 50 million shares (48%) in **Mt Isa Metals Limited** (ASX: MET) embarking on an exciting gold strategy in Burkina Faso, and 32.9 million shares (17.05%) in **Solomon Gold plc** (LSE: SOLG).

D'Aguilar has recently announced plans for the IPO and ASX listing of subsidiaries **AusNiCo Limited** (nickel and cobalt) and **Navaho Gold Pty Ltd** (gold and silver).

In the development pipeline, D'Aguilar is also progressing plans for other subsidiaries – **Ridge Exploration** (iron ore, titanium and aluminium), **Anduramba Molybdenum** (molybdenum and copper) and **Barlyne Mining** (porphyry copper, gold and molybdenum). Several other projects are at earlier stages of development, and will be announced to the market when exploration tenements have been secured.
