Explanatory Memorandum

1. Introduction

This Explanatory Memorandum is provided to shareholders of **DGR Global Limited ABN 67 052 354 837 (Company)** to explain the Resolutions to be put to Shareholders at the Annual General Meeting to be held at Level 7, Waterfront Place, 1 Eagle Street, Brisbane, Qld, 4000 on 29 November 2012 commencing at 3:00pm (Brisbane time).

The Directors recommend Shareholders read the accompanying Notice of Meeting and this Explanatory Memorandum in full before making any decision in relation to the Resolutions.

2. Consider the Company's 2012 Annual Report

The Corporations Act requires the Company's Annual Report comprising the Directors' Report, the Auditor's Report, Directors' Declaration, Consolidated Statement of Comprehensive Income, Consolidated Statement of Financial Position, Consolidated Statement of Changes in Equity, Consolidated Statement of Cash Flows and notes to and forming part of the financial statements to be tabled at the Annual General Meeting. There is no requirement either in the Corporations Act or in the Constitution of the Company for Shareholders to approve the Company's Annual Report. The Company's 2012 Annual Report is placed before the Shareholders for discussion. No voting is required for this item.

Shareholders can obtain a copy of the Company's 2012 Annual Report by sending a request to info@dgrglobal.com.au or by downloading a copy from the Company's website: www.dgrglobal.com.au. The Company's 2012 Annual Report was released to the ASX on 28 September 2012.

3. Resolution 1 - Remuneration Report

The Board has submitted its Remuneration Report (included in the 2012 Annual Report) to Shareholders for consideration and adoption by way of a non-binding Advisory Resolution.

The Remuneration Report is set out in the Directors' Report section of the 2012 Annual Report (see pages 18 to 24). The Report:

- explains the Board's policy for determining the nature and amount of remuneration of executive Directors and senior executives of the Company;
- explains the relationship between the Board's remuneration policy and the Company's performance;
- sets out remuneration details for each Director and the most highly remunerated senior executives of the "consolidated group" (ie. DGR Global and each company in which DGR Global holds (or held) a greater than 50% interest); and
- details and explains any performance conditions applicable to the remuneration of executive Directors and senior executives of the Company.

A reasonable opportunity will be provided for discussion of the Remuneration Report at the meeting.

The Board unanimously recommends that Shareholders vote in favour of adopting the Remuneration Report.

Voting restrictions on Key Management Personnel and their proxies and Closely Related Parties

Members of the Key Management Personnel ("KMP") and their proxies and Closely Related Parties are restricted from voting on a resolution ("Voting Restriction") put to Shareholders that the remuneration report of the Company be adopted. Key Management Personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity.

The Voting Restriction does not apply where:

- (a) the Chairman or any other KMP is appointed in writing (by a Shareholder who is not a KMP or a Closely Related Party of a KMP) as a proxy with specific instructions on how to vote on a resolution to adopt the remuneration report of the Company; or
- (b) the Chairman is appointed in writing (by a Shareholder who is not a KMP or a Closely Related Party of a KMP) as a proxy with no specific instructions on how to vote on a resolution to adopt the remuneration report, where the Shareholder provides express authorisation for the Chairman to vote on the resolution.

Shareholders should be aware that any undirected proxies given to the Chairman will be cast by the Chairman and counted in favour of the resolutions the subject of this Meeting, including this Resolution 1, subject to compliance with the Corporations Act.

4. Resolution 2 – Re-election of Mr Vince Mascolo as a Director

Mr Vince Mascolo retires by rotation in accordance with the Company's Constitution and, being eligible, offers himself for re-election as a Non-Executive Director. Mr Mascolo has served on the DGR Global Board since 30 September 2002.

Mr Mascolo is a qualified mining engineer with extensive experience in a variety of fields, including gold and coal mining, quarrying, civil-works, bridge-works, water and sewage treatment and estimating.

Mr Mascolo has completed numerous assignments in the Civil and Construction Industry, including construction and project management, engineering, quality control and environment and safety management. He is also a member of both the Australian Institute of Mining and Metallurgy and the Institute of Engineers of Australia.

The Directors (with Mr Mascolo abstaining) recommend that you vote in favour of this Resolution.

5. Resolution 3 – Approval for the Transfer of Tenements (EPM 15238 and EPM 18586) to Archer Resources Limited

Resolution 3 seeks the approval of Shareholders for the transfer of all rights, title to and interests in (including any rights or interests arising pursuant to or in connection with applications for renewal) Exploration Permits EPM 15238 and EPM 18586 (**Tenements**) from the Company to Archer for nil consideration (**Transfer**). As three of the Company's Directors have a material personal interest in the outcome of Resolution 3, the Directors have resolved, in the interest of good corporate governance, to seek Shareholder approval for the transfer of the Tenements.

5.1 Rationale for the Transfer

The long-term holding and exploration of the Tenements is not considered by the Board to fit within the Company's business strategy and is considered to be more in line with the business strategy of Archer. The Company is the holding company of Archer. Due to the alignment of Archer's exploration interests and the potential mineral deposits in the Tenements, the Board is of the view that the value of the Tenements will be enhanced if they are held by Archer as it already holds tenements of a similar mineral prospectivity.

The Tenements are located in Queensland at Manumbar and North West of Monto and are broadly prospective for gold and silver, although exploration work conducted by the Company to date has been restricted to surface sampling and interpretation of existing geological data.

To date, the Company has capitalised a combined total of approximately \$1,219,267 on the exploration and holding of these Tenements and Archer will assume responsibility for the exploration and maintenance cost of the Tenements upon completion of the Transfer.

The Company is of the view that in the longer term, the Company is likely to derive greater value from the Tenements through its holding in Archer, rather than through direct retention of the Tenements.

Further details on the Company's business strategy and Archer are set out in sections 5.3 and 5.4 below.

5.2 Terms of the Proposed Transfer

The Company proposes to transfer the Tenements to Archer Resources for nil cash consideration.

The transfers will require the consent of the Minister under the Mineral Resources Act, which is expected to be given.

As noted above, the Board of the Company believes that the commercial value of the Tenements will be better enhanced under the ownership and management of Archer, which will, in turn, be reflected in the commercial value of the Company's shareholding stake in Archer moving forward.

The Company has received advice from its auditors that the capitalised value of these exploration licences in the Company's balance sheet (approximately \$1,219,267) can be transferred to the cost of the Company's shareholding in Archer and continue to be carried on the Company's balance sheet as an investment.

5.3 DGR Global's Business Strategy

The Company is a diversified global resource company generator and investment house with a strong track record of commercialising innovative exploration concepts.

Projects are conceived directly through the skills and experience of the Company's accomplished team of exploration geoscientists (with an enviable track record), not by the costly purchase of properties. Each project or exploration strategy is held in a separate subsidiary. Focused and specialist management is then engaged in the subsidiary, with project specific finance raised in the subsidiary which is faster and less dilutive to the Company. As the subsidiary project develops and starts to derisk, the subsidiary is separately capitalised (seed raisings followed by a capital market listing).

Investors can choose to invest specifically in a particular project/commodity, or by investing in the Company, invest in the resource company generating business which retains a significant carried interest in each project.

The Company currently holds the following investments in its subsidiary companies that have already been listed:

- **Orbis Gold Limited** (ASX: OBS) exploring for gold in Burkina Faso: 45 million shares (20.74%);
- **SolGold Plc** (LSE: SOLG) exploring for gold, copper and silver in Ecuador, South America; Queensland, Australia and in the Solomon Islands: 46.24 million shares (10.9%);
- **AusNiCo Limited** (ASX: ANW) exploring for nickel, cobalt, copper and silver in Queensland: 60 million shares (41.5%);
- **Navaho Gold Limited** (ASX: NVG) exploring for Carlin style gold mineralisation in Nevada, USA and Queensland: 27 million shares (29%);
- **Armour Energy Limited** (ASX: AJQ) dedicated to the discovery and development of world class gas resources in an extensive new province in Northern Australia. Further details about Armour Energy are set out below: 75 million shares (25%).

The Company is also progressing the corporate and project development of the following companies:

- **Archer Resources Limited** (67%) - (refer section 5.4 below);
- **IronRidge Resources Limited** (56.5%) which is focused on exploration for and the development of large scale bulk commodities, including iron ore and titanium in Gabon, West Africa and in Queensland and New South Wales, Australia;
- **Pinnacle Gold Pty Ltd** (94%) exploring for gold in New South Wales, Australia.

Furthermore, the Company is currently developing plans for the potential addition of further unlisted subsidiary companies with interests in tin, copper, gold, silver, uranium, rare earths, antimony, coal and graphite. This demonstrates the ability of the Company to continually repeat the creation of new mineral exploration and development companies year after year.

Typically the Company generates two or more new wholly owned subsidiaries per year. The Company raises seed capital, installs management and executives and organises capital raisings and stock exchange listings. In the crucial early life as a listed company, substantial support is provided by the Company to its subsidiaries, sharing corporate overhead costs such as offices, administration and accounting, together with seconding key geological and field staff on an “as needs” basis until such time as the new company can justify its own staff. As the new company advances and grows over time, the Company aims to hold its position as a solid cornerstone shareholder enjoying capital appreciation.

5.4 About Archer Resources Limited (Archer)

Archer owns 100% of Barlyne Mining Pty Ltd and AimFire Pty Ltd. Previously, Archer was a 100% subsidiary of the Company, but seed capital raised in Archer earlier in 2011 resulted in the Company holding a 67% ownership of Archer. A planned IPO and ASX listing for Archer has been put on hold following the significant downturn in capital markets and a smaller pre-IPO raising is now envisaged. It is currently intended that Archer may be listed within the next year.

Archer’s business model is focused on the development of a porphyry copper-gold-silver-molybdenum mining company. Archer’s existing tenements are located in the southeast Queensland area, at Mt Abbot (west of Bowen, Qld) and at Bathurst in NSW. Many of Archer’s projects already host significant drill intersections of copper-gold-silver-molybdenum mineralisation. The Company believes that the transfer of the Tenements to Archer would compliment Archer’s existing tenement portfolio and enhance the value of Archer which would benefit The Company and its Shareholders in the long term when Archer undertakes its ASX listing.

6. Resolution 4 – Approval of grant of Option over ML 50059 and ML 50099 to Archer Resources Limited

Resolution 4 seeks the approval of Shareholders for the grant of an option (**Option**) to Archer over Mining Leases ML 50059 and 50099 (**Mining Leases**) and the subsequent transfer of the Mining Leases to Archer if the Option is exercised (**Transfer on Exercise**). As three of the Company’s Directors have a material personal interest in the outcome of Resolution 4, the Directors have resolved, in the interest of good corporate governance, to seek Shareholder approval for the grant of the Option and the Transfer on Exercise.

6.1 Rationale for the Option

The long-term holding and exploration of the Mining Leases is not considered by the Board to fit within the Company’s business strategy and is considered to be more in line with the business strategy of Archer. The Company is the holding company of Archer. Due to the alignment of Archer’s exploration interests and the potential mineral deposits in the Mining Leases, the Board is of the view that the value of the Mining Leases will be enhanced if they are held by Archer as it already holds tenements of a similar mineral prospectivity.

The Tenements are located in Queensland in the Manumbar area and are broadly prospective for gold.

To date, the Company has capitalised a combined total of approximately \$188,179 on the exploration and holding of the Mining Leases. Archer will assume responsibility for the exploration and maintenance cost of the Tenements during the term of the Option and in the event that Archer exercises the Option.

The Company is of the view that in the longer term, the Company is likely to derive greater value from the Mining Leases through its holding in Archer, rather than through direct retention of the Mining Leases.

Further details on the Company's business strategy and Archer are set out in sections 5.3 and 5.4 above.

6.2 Terms of the Option

The Company proposes to grant the Option for nil cash consideration. The Option will give Archer the right to elect to have the Mining Leases transferred to it for nil cash consideration.

The term of the Option is 3 years, however, Archer has the right to terminate the Option on the 1st or 2nd anniversary of the grant of the Option. The Option may be exercised at any time during the term by providing written notice to the Company.

During the term of the option Archer:

- will be responsible for funding rates (approximately \$1,500 pa), mining lease rental costs (approximately \$9,947 pa) and a portion of the environmental authority costs associated with a number of tenements held by the Company, including the Mining Leases (in an amount of \$10,000 pa);
- will have the right to enter, access and undertake exploration on the Mining Leases.

The Option provides that if the Company proposes to sell or transfer the Mining Leases (whether by themselves or in conjunction with other tenements), the purchaser will be required to be bound by the Option.

There is no exercise price payable on exercise of the Option, however, subject to approval of the Department, on exercise of the Option Archer shall assume the rehabilitation liabilities attached to the Mining Leases and shall replace the current bond of \$114,847.98 lodged in respect of the Mining Leases with the Department.

The transfer of the Mining Leases upon exercise of the Option will require the consent of the Minister under the Mineral Resources Act, which is expected to be given.

As noted above, the Board of the Company believes that the commercial value of the Mining Leases will be better enhanced under the ownership and management of Archer, which will, in turn, be reflected in the commercial value of the Company's shareholding stake in Archer moving forward.

The Company has received advice from its auditors that the capitalised value of the Mining Leases in the Company's balance sheet (approximately \$188,179) can be transferred to the cost of the Company's shareholding in Archer and continue to be carried on the Company's balance sheet as an investment.

6.3 DGR Global's Business Strategy

Details regarding the Company's Global Business Strategy are set out in section 5.3 above.

6.4 About Archer Resources Limited

Details regarding the Company's Global Business Strategy are set out in section 5.4 above.

The Company believes that the transfer of the Mining Lease to Archer would compliment Archer's existing tenement portfolio and enhance the value of Archer which would benefit The Company and its Shareholders in the long term when Archer undertakes its ASX listing.
