About DGR Global Limited

DGR Global Limited is focused on generating exploration and development companies in a wide array of minerals.

Projects are conceived directly through the skills and experience of DGR Global's accomplished team of exploration geoscientists (with an enviable track record), not by the costly purchase of properties. Each project or exploration strategy is held in a separate subsidiary.

Focused and specialist management is then engaged in the subsidiary, with project specific finance raised in the subsidiary – faster and less dilutive to DGR Global. As the subsidiary project develops and starts to derisk the subsidiary is separately capitalised (seed raisings followed by an IPO).

Investors can choose to invest specifically in a particular project/commodity, or by investing in DGR Global, invest in the resource company generating business which retains a significant carried interest in each project.

DGR Global projects tend to be very large, targeting new provinces with the potential to make world-class discoveries. The exploration concepts are often novel. While increased metal prices and advances in technology can turn former sub-economic deposits into viable projects, DGR Global subsidiary projects frequently emerge from detailed reassessment and reinterpretation of large databases – looking at things from a new angle and with a different focus using state of the art techniques. The DGR Global Directors and Managers have in the past applied new exploration models to extensive tenement areas which have led to identification of new mineral provinces and the discovery of nationally significant resources. These efforts are now being dedicated to DGR Global.

DGR Global currently holds 75 million shares (25%) in Armour Energy Limited (ASX: AJQ) currently focused on the discovery and development of world class gas resources in northern Australia, 39 million shares (18%) in Orbis Gold Limited (ASX: OBS) currently expanding its gold resource in Burkina Faso, 54 million shares (10%) in SolGold plc (LSE: SOLG) currently exploring for gold and copper in the Solomons, Ecuador and Queensland, 59.8 million shares (14%) in AusNiCo Limited (ASX: ANW) owner of the Taronga Tin Project, and 58 million shares (28%) in Navaho Gold Limited (ASX: NVG) exploring for Carlin style gold in Nevada and owner of the prospective NavGas Project in South Australia.

DGR Global currently has 324,202,760 shares on issue.
