Update on Investment in Orbis Gold

The Directors of DGR Global Ltd (**DGR**, the Company) advise that Orbis Gold Ltd (Orbis, ASX:OBS), in which DGR holds 39m shares (or 17.8%), earlier this week announced the discovery of a world class gold system at Natougou, with a maiden resource estimate of 15 million tonnes of indicated and inferred resource at a grade of 3.7g/t gold for 1.8m ounces of contained gold^{FN1}. The resource is open in all lateral directions.

Resource Category	Tonnes	Grade	Contained Gold
Indicated	1.2 Mt	5.2g/t Au	0.20 Mozs
Inferred	14 Mt	3.5g/t Au	1.6 Mozs
Natougou Total	15 Mt	3.7g/t Au	1.8 Mozs

Natougou Mineral Resource (at 0.5g/t Au cut-off grade)^{FN1}

DGR is a strong supporter of the Orbis strategy on Burkina Faso generally, and on its three projects at Bantou, Bongou (Natougou) and Nabanga. More specifically, DGR is encouraged by the potential for further discovery at Natougou and Bantou. At Natougou the 1.1km² surface footprint of the resource is only 3% of the area of the >10 ppb gold in soil anomaly leaving the remaining 97% still to be explored. DGR considers the likelihood of further discoveries in this prospective zone to be high.

Importantly, the Natougou resource is approximately 2.5 times the average global gold resource replacement grade, differentiating Natougou from lower grade recent gold resource discoveries.

Recently released metallurgical results indicating recoveries of 92% with standard grind and reagent consumptions^{FN2}, gives DGR confidence in a strongly positive result from the current scoping study due for completion end August 2013.

Thanks to the support of its loyal shareholders, DGR has recently completed an oversubscribed rights issue and placement raising \$1.95 million to fund DGR's entire operational requirements on its current business plan for the next year. DGR's strategy of resource company generation and support through the growth phases is exemplified by the Orbis investment.

Under DGR's current business plan the recent capital raising in DGR obviates any need for funding by asset disposals over the next year.
